7. On the basis of the Client's request, the Company shall perform an adequate assessment of expertise, experience, and knowledge of the Client to the required degree, so as to ensure reasonable confidence in the fact that, subject to the nature of the respective transactions or services, the Client is able to independently make investment decisions and understands the risks connected therewith. At the same time, upon failure of the Client to comply with the aforementioned criteria, the Company reserves the right to choose whether to provide services under the category requested by the Client.

If you are categorized by us as Professional Client under MIFID, in providing you with reception and transmission and/or execution services, we are not required to assess the appropriateness of the financial instrument in which you wish to transact, nor the service(s) provided or offered to you. As a result, you will not benefit from the protection of the Applicable Regulations as regards assessment of appropriateness. We will not assess whether you have the necessary knowledge and experience to understand the risk involved.

We are obliged under Applicable Regulations to obtain information about your knowledge and experience in the investment field so that we can assess whether the service or product envisaged is appropriate for you. If you elect not to provide such information to us, or if you provide insufficient information, we will not be able to determine whether the service or product envisaged is appropriate for you. We shall assume that information about your knowledge and experience provided from you to us is accurate and we will have no responsibility to you if such information changes or becomes inaccurate unless you have informed us of such changes.

If after completing our appropriateness test you mark that you have poor experience and poor knowledge in the products traded under these Terms of Business, please pay attention to the fact that trading foreign exchange on margin carries a high level of risk and may not be appropriate for you.

If, based on our MIFID categorization to you, you have been categorized as RETAIL client, please be informed that we consider that the products traded under these Terms of Business are NOT APPROPRIATE FOR YOU, and assume no fiduciary duty in our relations with you.

9. INSTRUCTIONS AND ORDERS

1. The transaction (opening or closing a position) is executed at the «BID» / «ASK» prices offered to the Customer. The Customer chooses desirable operation and makes a request for the Trade Confirmation by the Company. The transaction is executed at the prices, which can be seen by the Customer in the Trading Platform. Due to the high volatility of the markets during the confirmation process the price may change significantly.

The Customer accepts that the Company shall bear no responsibility for determination of the execution price due to its market nature as well as for the Customer's trades, which may result either in loss or in gain.

2. The Customer may give only the following orders of trading character:

- a) OPEN – to open a position;
- b) CLOSE – to close an open position;

This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted. Or this may occur in the trading session start moments. So, as a result, placing a Stop Loss order will not necessarily limit the Customer's losses to the intended amounts, because market conditions may make it impossible to execute such an order at the stipulated price.

12. All price levels in the Trading Platform are determined at the Company's discretion. Any references of the Customer to prices of other trading or information systems shall be disregarded.

The Customer is entitled to change the leverage of his/ her trading account by contacting the Company.

15. The level of Swap rates may vary in size and change depending on the level of interest rates. The Company reserves the right to change the level of swap rates and inform you about it through the internal mail of the Trading platform. From Friday to Monday swaps are calculated once. From Wednesday to Thursday swaps are calculated in triple size.

16. All spreads are being considered as floating and depending on market conditions. More details on spread variations found on the Company's website.

21. By using our Services, you are deemed to consent to our Best Execution Policy. Please note that our Best Execution Policy provides for the possibility that orders may be executed outside a Regulated Market or a MTF.

Unless you request us not to, if you instruct us with a limit order in respect of shares admitted to trading on a Regulated Market, other than a large scale order and we do not execute this order immediately under prevailing market conditions, we will take measures to facilitate the earliest possible execution of your order by making your order publicly available to market participants via transmission to an unregulated Market or MTF that operates an order book trading system, or by some other means intended to make the order public and easily executable once market conditions allow.

We may execute your order as a series of transactions at different times and apply the average price to such transactions.
